**Inter Office Correspondence**

**TO:** Tony Andrade  
**FROM:** Mayada Logue *ML*  
**SUBJECT:** ASHRAE Submission to OSHA

**DATE:** June 8, 1994

Attached is a copy of the draft proposed testimony to be submitted to OSHA concerning notice of rule-making on indoor air quality. At the ASHRAE 62 meeting in Orlando, Gene Tucker, chairman of the 62 revision committee, stated he asked Dr. M. Hodgson to prepare comments to OSHA on behalf of the committee. It is my understanding that M. Hodgson will testify before OSHA on behalf of the entire committee.

Attached also, is "Attachment 1" referred to in the document and the correspondence between William Cain and Larry Holcomb concerning that attachment.
